A CLEARER WAY TO PARTICIPATE

Your capital. A clear next step.

Cretix brings investment plans, account activity and team opportunities into one personal space.

01 Choose your route

Compare the amount, daily rate and term before opening a plan.

02 Follow every stage

See your balance, daily accruals and payout status in one dashboard.

03 Grow through connections

Invite people you know and build a team with practical partner tools.

A COMPANY YOU CAN IDENTIFY

Cretix Limited. Registered in Hong Kong.

Company details are published in the Hong Kong Companies Registry report. Follow the source and check the entry yourself.

BETWEEN NETWORKS

Different networks. Shared opportunities.

The Cretix model connects pooled capital with cross-chain transfer opportunities. Participation follows the terms of your chosen plan.

01 Networks need liquidity

Cross-chain transfers rely on capital and participants who execute transactions.

02 Activity generates fees

Across fees compensate liquidity providers and relayers for their role in transfers.

03 Participation follows a plan

Your plan defines the amount, rate, term and principal-return schedule.

Cretix is independent of Across. Protocol fees do not establish or guarantee Cretix's investment performance. [Across fee model](#)

THE ECONOMICS BEHIND THE TRANSFER

Liquidity at work. Fees for participation.

Across connects networks through participants who supply liquidity and execute transfers.

01

A transfer is requested

The user chooses the asset, amount and destination network.

02

A relayer delivers

The relayer sends its own assets on the destination network, then receives repayment through settlement.

03

Participants earn fees

Fees compensate relayers and liquidity providers for their contribution.

FOUR SIMPLE STEPS

From invitation to your first plan.

Start with the essentials. Your next action is always visible in the dashboard.

01

Join by invitation

Open your partner's link, create an account and confirm your email.

02

Fund your balance

Choose a token and network. Funding starts from 5 USDT equivalent.

03

Open your plan

Select an eligible plan from 10 USDT and confirm the investment.

04

Track your progress

Review accruals, dates and account activity directly in your dashboard.

Funding and investing are separate steps. A balance top-up by itself does not open an investment plan.

FIVE ROUTES FOR YOUR CAPITAL

Choose the terms that fit your horizon.

All plans are denominated in USDT. Principal is scheduled to return at the end of the term.

Plan	Amount · USDT	Term	Daily rate	Calculated total*
01 Origin	10–499.99	30 days	1.2%	136%
02 Route	500–1,999.99	40 days	1.5%	160%
03 Relay	2,000–4,999.99	60 days	1.8%	208%
04 Hub	5,000–14,999.99	90 days	2.2%	298%
05 Nexus	15,000–100,000	120 days	2.5%	400%

* Principal + simple daily profit over the full term, before any fees and without reinvestment. These are calculations from plan terms, not guaranteed outcomes. Current terms are shown in the dashboard.

ONE PLAN. A CLEAR CALCULATION.

100 USDT in Origin.

A simple illustration of the 30-day plan at a daily rate of 1.2%.

YOUR NEXT CYCLE. YOUR CHOICE.

Put your next move on your terms.

Keep daily profit available, open another plan from your balance, or enable eligible principal renewal.

01 Daily profit stays available

Accrued profit is credited to your main balance. You choose how to use it.

02 Open a new plan

Use your available balance once it meets the minimum amount for the selected plan.

03 Renew the principal

When enabled and eligible, the returned principal opens a new cycle in the same plan.
Daily profit is not automatically compounded.

CRYPTO IN. CLARITY THROUGHOUT.

Your token. Your network. One balance.

Amounts in other cryptocurrencies are credited to your USDT balance using the applicable quote.

**USDT**

Tron · BSC · Ethereum · TON

**USDC**

BSC

**ETH**

Ethereum

**BNB**

BSC

**TRX**

Tron

5 USDT

Minimum funding equivalent

0.5 USDT

Minimum withdrawal

10,000 USDT

Maximum per withdrawal

Withdrawals: USDT via Tron, BSC or Ethereum; USDC via BSC; ETH; TRX. BNB and USDT TON currently support funding only. Payout requests are processed automatically after checks; network confirmation time may vary. Fees and the final token amount appear before confirmation.

LESS WAITING. MORE CONTROL.

Fast funding. Instant payout processing.

Manage your transfers in one dashboard, with the amount, network and status always in view.

Fund your account

**5** USDT

Minimum funding equivalent

Choose a token and network, send the transfer and receive credit after payment confirmation. Then open your chosen plan from the balance.

Request a payout

**0.5–10,000** USDT

Per withdrawal

Submit your request: eligible payouts are sent automatically after checks, without waiting for a manual payout round. Follow the status in your history.

Instant refers to automatic payout processing, not guaranteed blockchain arrival time. Crediting and delivery depend on payment confirmation, network conditions and account checks.

FIVE LEVELS OF CONNECTION

An invitation can become a partnership.

Earn a commission from the amount invested when an invited participant opens a plan.

A first-level participant opens a 1,000 USDT plan

$$1,000 \times 7\% = 70 \text{ USDT}$$

Rewards go to your referral balance. Transfer them to your main balance to use or withdraw.

LEAD WITH MORE THAN A LINK

Make your team worth joining.

Give participants a clear goal, a reason to stay engaged and a direct connection with their inviter.

01

Personal campaigns

Set a first-plan, new-plan or active-investment goal. Choose the reward and available places.

02

Rewards you approve

Check completed goals before confirming rewards. Campaigns are funded from your own balance.

03

Gifts & refback

Support team members with gifts and choose a share of referral rewards to return after review.

04

Progress & connection

Track team investments and participant progress. Reach your inviter through the contact options in your account.

A PRACTICAL WAY TO GROW

Build interest. Keep the connection.

A good invitation explains the opportunity and helps a new participant make an informed first move.

01 Share a clear invitation

Use your personal link, ready-made banners and this presentation.

02 Help with the first steps

Explain how funding, plan selection and daily accruals work.

03 Create a team campaign

Offer an achievable goal and a reward you can fund and approve.

04 Stay involved

Follow progress, answer questions and celebrate completed goals.

DETAILS THAT MAKE A DIFFERENCE

Your account. Your control.

Use the tools that help you stay informed and manage access to your account.

01

Email confirmation

Confirm your email and keep account messages within reach.

02

Additional protection

Set up QR-based two-factor authentication or an additional payment password.

03

A readable history

See amounts, tokens, networks and the status of your operations.

04

People to contact

Use support requests, your inviter's contacts and the official community channels.

CLARITY IS PART OF THE EXPERIENCE

Start with the right expectations.

Know what happens at every stage before deciding to participate.

01 When do accruals start?

After plan activation, following each complete 24-hour period.

02 When does principal return?

At the end of the selected term; renewal is optional when available.

03 When is the referral reward credited?

After the invited participant opens an eligible plan, from the invested amount.

04 Where can I check the latest terms?

In the plan details, payment confirmation screens and document center.
